

# Equip Your 7mm Microcamera To Perform Anywhere

accessories and modifications for 7 mm microcameras from

**Shot**

# ... with Specialized Accessories and Modifications From iShot Imaging.

Whatever you need to view, iShot Imaging can accessorize and modify your 7 mm remote-head microcamera to get the job done.

iShot Imaging custom cameras deployed around the world gather video from submerged, wet, hazardous, hot, and EMI-prone environments. They fit where stock cameras can't, and gather views from vantage points standard lens/camera combinations can't address. They view targets under a much broader range of ambient lighting conditions, and bring light with them when there is none.

Depicted here are just some of the possibilities...

### Legend

- Accessories (user installed)
- Modifications: Body (factory installed)
- Modifications: Cable (factory installed)
- Modifications: Optical (factory installed)

**90° Viewing Adapter**  
10. rotating roof prism **EM10060**

**Filters**

11. holder for 1-3 filters	<b>EM11432</b>
12. polarizing filter	<b>EM11437</b>
weld spatter shield	<b>EM11442</b>
weld filter no. 8	<b>EM11447</b>
weld filter no. 9	<b>EM11452</b>
weld filter no. 10	<b>EM11457</b>
weld filter no. 12	<b>EM11462</b>
neutral density filter	<b>EM11467</b>
UV cut filter (for backlight)	<b>EM11494</b>

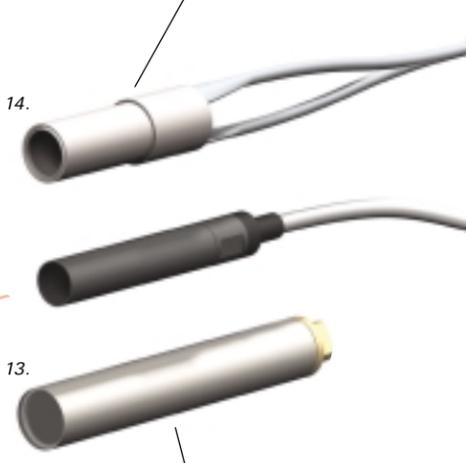

**Specialty Lenses**

6. 12.5 mm, 15.0° FOV	<b>EM10053</b>
7. 20.0 mm, 10.0° FOV	<b>EM10055</b>
8. 35.0 mm, 5.0° FOV	<b>EM10056</b>
9. 70.0 mm, 2.5° FOV	<b>EM10058</b>

**Extension Tubes**

1. 1/4" long	<b>EM11489</b>
2. 3/8" long	<b>EM11490</b>
3. 1/2" long	<b>EM11491</b>
4. 5/8" long	<b>EM11492</b>
5. 3/4" long	<b>EM11493</b>

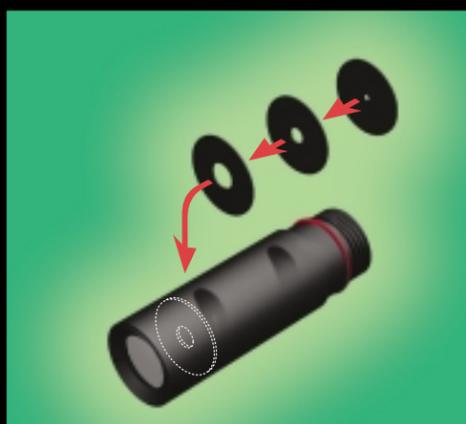

**Fiberoptic Ring Light**  
14. w/ 3.5 or 15 m light guide **EM10362**

**Splashproof Housing**

13. stainless & brass, 3/8" dia.	<b>EM10362</b>
plastic, 3/8" dia.	<b>EM11586</b>
Delrin, 3/8" dia.	<b>EM11587</b>
nylon, 3/8" dia.	<b>EM11588</b>

**Reticles:** standard & custom patterns

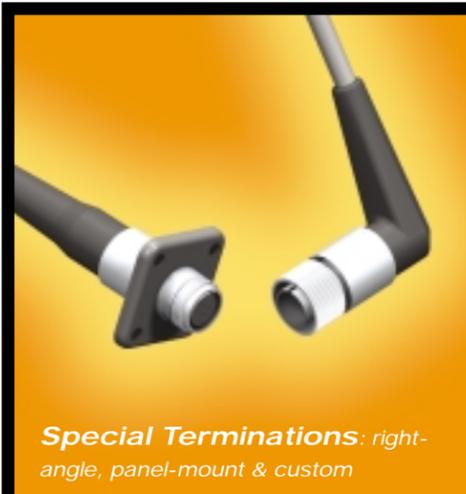

**Aperture Modification**

**Off-angle Cable Exits**

iShot Imaging, Division of InterTest, Inc. • 973-927-2900 • www.ishotimaging.com

Design and specifications subject to change without notice. 3/01

**Special Terminations:** right-angle, panel-mount & custom

**Auxiliary Control Leads**

**Angled Body Splices**

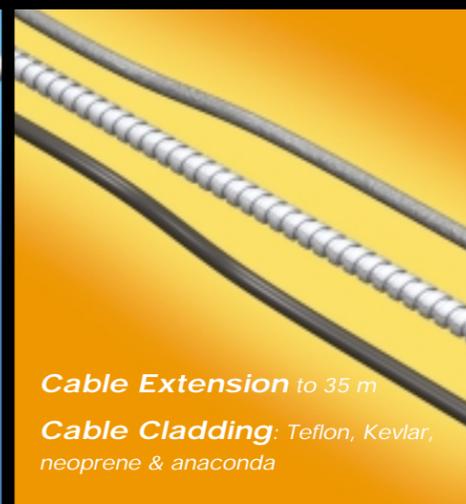

**Body Shortening** by 3/8"

**Waterproofing** for submersion to 100'

**Air Cooling** for ambient temps to 400°F

**Cable Extension** to 35 m  
**Cable Cladding:** Teflon, Kevlar, neoprene & anaconda

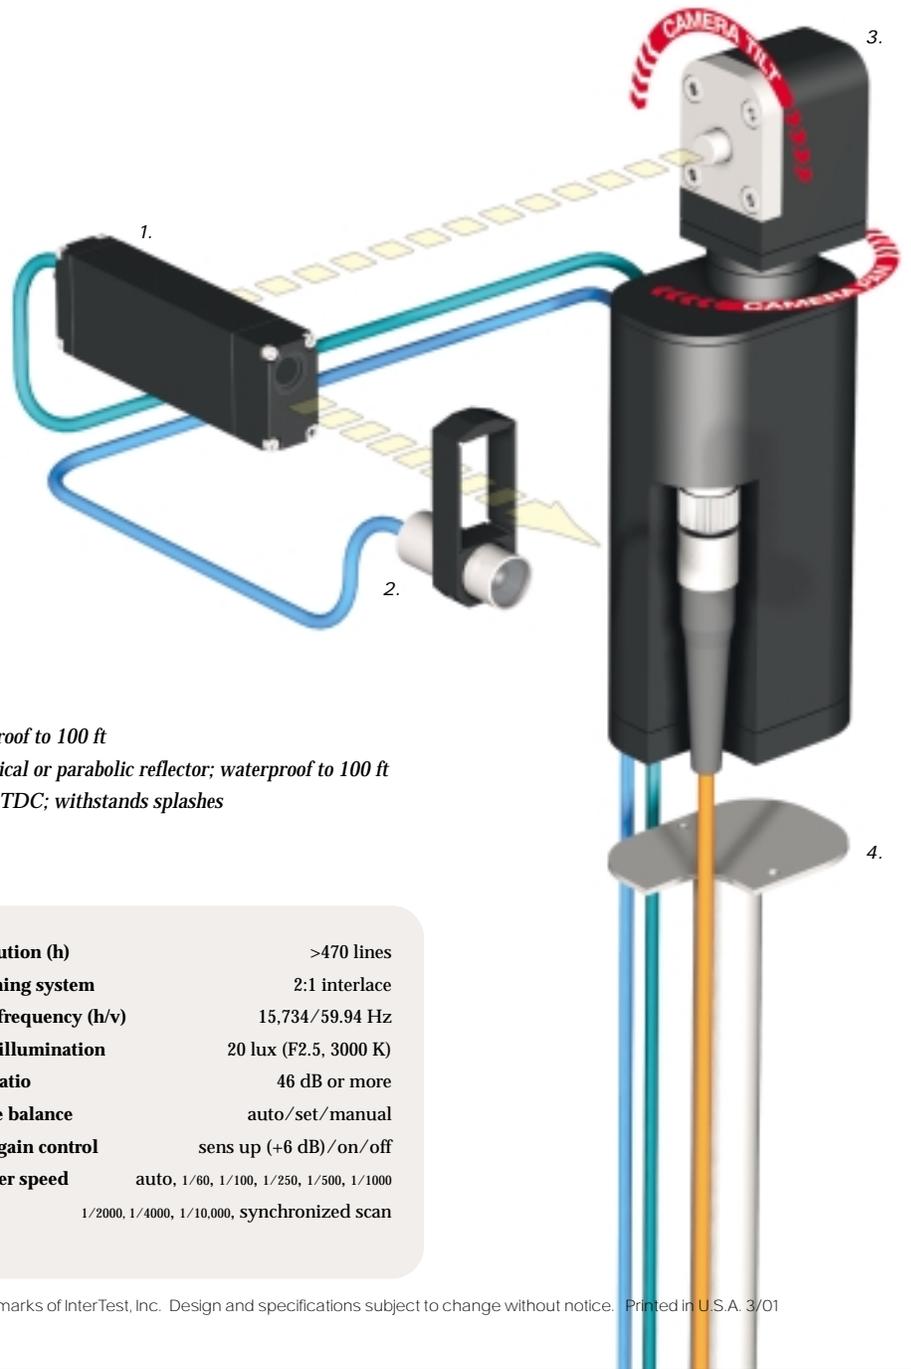

**Inline Connector:** standard (shown) & waterproof, anywhere along cable

# Solve Complex Applications with Sophisticated System Components.

iShot Imaging offers a series of system components designed for 7 mm microcameras. These components accomplish sophisticated tasks beyond the range of traditional camera accessories.

Shown here is a complete system designed to view moving or multiple targets in dark, wet areas. It lets a remote user pan, tilt, and focus the camera, as well as adjust illumination intensity.

In addition to the components shown, iShot Imaging offers a range of standard and custom components designed to adapt 7 mm microcameras to virtually any application. They accomplish fixturing, articulation, temperature sensing, infrared viewing, shock- and vibration-proofing, remote iris adjustment, and much more.

## Sample System

1. **remote focus housing:** focuses 3/8 in. to infinity; waterproof to 100 ft
2. **auxiliary light pack:** rated 6 watts; available with elliptical or parabolic reflector; waterproof to 100 ft
3. **remote pan/tilt unit:** pans 360 deg; tilts  $\pm 150$  deg from TDC; withstands splashes
4. **extension pedestal:** with mounting flange or handgrip

## Standard 7 mm Microcamera Specifications

length	48 mm	resolution (h)	>470 lines
cable length	3.5 or 15 m	scanning system	2:1 interlace
weight	2.4 oz	scan frequency (h/v)	15,734/59.94 Hz
temperature/humidity tolerance	14–104°F; <90%	min. illumination	20 lux (F2.5, 3000 K)
image sensor	1/4" IT CCD	S/N ratio	46 dB or more
effective pixels (h/v)	768/494 pixels	white balance	auto/set/manual
effective image area (h/v)	3.65/2.74 mm	auto gain control	sens up (+6 dB)/on/off
		shutter speed	auto, 1/60, 1/100, 1/250, 1/500, 1/1000 1/2000, 1/4000, 1/10,000, synchronized scan
